VECC Interrogatory Requests

Question #1

Reference: WNPI, Manager's Summary and 3GIRM Supplementary Model

- a) With respect to the Supplementary Model, Tab C1.1, please confirm that the values entered are not based on WNPI's Cost Allocation Informational filing – as directed.
- b) With respect to Manager's Summary page 8 and Tabs C3.1 & C4.1, WNPI has assigned all of the cost allocation adjustments to the variable charge for each customer class affected. In WNPI's 2008 Rate Order, the cost allocation adjustments were reflected in both the fixed and variable charges so as to maintain the fixed/variable split. Please reconcile the 2009 approach with the Board's prior Decision regarding 2008 rates.
- c) Please confirm that the "cost" of the transformer ownership allowance was allocated to the GS 50-999 Class in WNPI's 2008 Rate Order.
- d) Given the price cap adjustment is applied to the all rates (including the mark-up for the transformer ownership allowance), why shouldn't the allowance also be applied to the transformer ownership allowance for 2009?
