VECC Interrogatory Requests

Question #1

Reference: Enersource, Application 3GIRM

- a) With to page 7, please point to the parts of the record from Enersource's 2008 Rate Application that would substantiate its claim that there were no costs related PCB removal included in the 2008 revenue requirement.
- b) With to page 8, please point to the parts of the record from Enersource's 2008 Rate Application that would indicate the extent to which costs related to IFRS were included in the 2008 revenue requirement.
- c) Please confirm how the "cost" of the transformer ownership allowance was allocated in Enersource's 2008 Rate Order.
- d) Given the price cap adjustment is applied to the all rates, why shouldn't it also be applied to the transformer ownership allowance for 2009?
