Dear Mr. Alexander:

**Re: Pollution Probe – Request for Information
York Region Electricity Supply – EB-2005-0315**

This letter is in response to Pollution Probe's letter to the Ontario Energy Board (the "Board") dated April 25, 2008.

The Board notes that in the Phase II York Region Report dated October 15, 2007, the Ontario Power Authority ("OPA") stated that:

It is the OPA's expectation, based on conversations with LDC staff, that each of the three LDCs will participate fully in the OPA-funded LDC Conservation programs in the summer of 2008 and 2009. The OPA plans to work with NYR LDCs to develop a more comprehensive plan for Conservation for the summers of 2008 and 2009. The OPA will update the Board when this information is available.

Board staff has contacted the OPA regarding this plan. It is our understanding that the OPA will be providing an update to the Board on its conservation plan in the Northern York Region for the summer of 2008. This update will be posted on the Board's website at the following link:

www.oeb.gov.on.ca/OEB/Industry+Relations/OEB+Key+Initiatives/York+Region+Electric+Supply+Proceeding

Yours truly,

Original signed by

Kirsten Walli
Board Secretary
